Login Name and Password

1. The manager needs a login name and a password. If you don't have an account you can create one by going to www.compusport.ca or www.compusport.us

Click on "Log In" on the top right corner

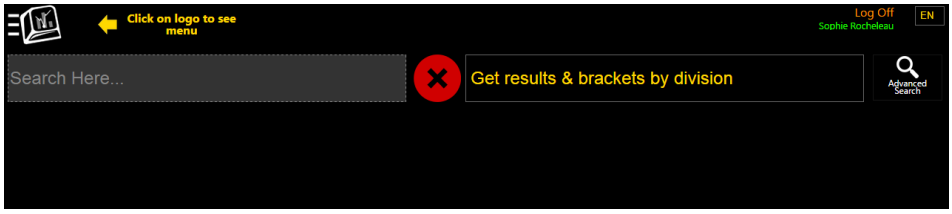
(click directly on the link « Click Here »)

Fill out this window

When choosing your password, you must have a Capital case letter and number. You can't use your name or email as a password.

2. When your account is created, you can create your own event by following this link: https://compusport.us/CS/SportEvents/Create/ and filling up the information.

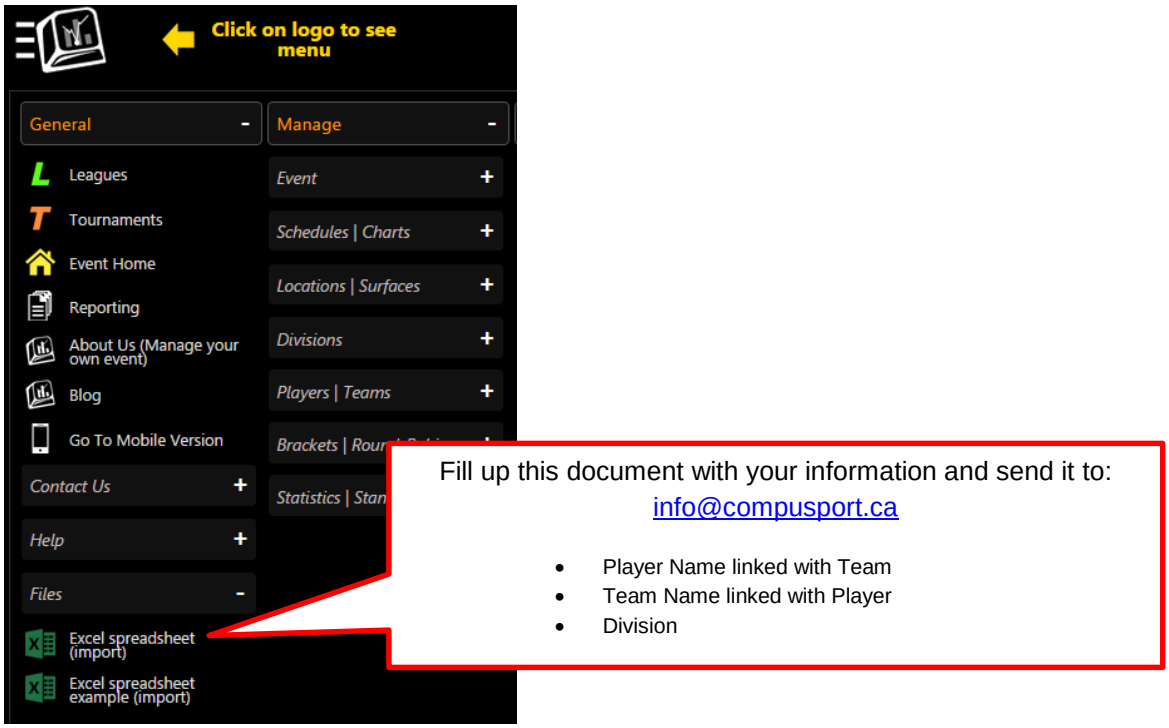
   Find your event on the "League" section and open it. Your event home page looks like this.



Step by step to setup your event

To find the menu, click on

3. If you have access to your data from your league system or already have an excel spreadsheet. Copy paste it into CompuSports Excel template to import it. To find this template go to your event and upload the excel spreadsheet under Files.



4. Create your locations and surfaces *(Manage > Locations | Surfaces)*
   - Add each bar in the system
   - Add room name if you've got different rooms to manage
   - Add your tables in the system 5. Create your divisions *(Manage > Divisions),* choose . Only if it wasn't imported from excel file
6. Build your Round-Robin *(Manage > Brackets | Round-Robin)*    - Make sure you choose the right scoresheet. Click on the round-robin you created, then Pencil to Edit, Score Input, Type of scoresheet.

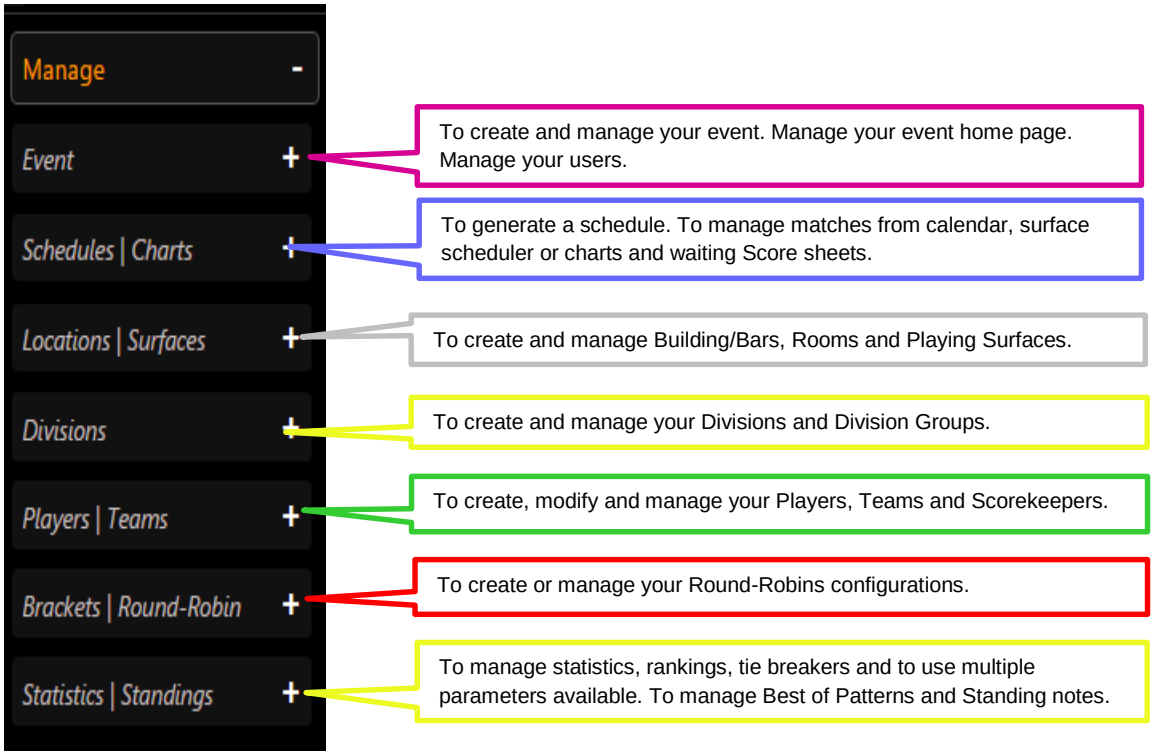
7. Manage your opponents *(Manage > Players | Teams)*
    - Team 
        i. Make sure your teams are linked with a Default Location (bar) and a Division.
    - Player 
8. Build your League schedule *(Manage > Schedules | Charts)*

9. Once you are ready to make your schedule public (available to players), call (888-888-0206) or send an email to info@compusport.ca and we will activate your event.

Manage Menu *(Manage)*



Manage
Event
Schedules | Charts
Locations | Surfaces
Divisions
Players | Teams
Brackets | Round-Robin
Statistics | Standings
To create and manage your event. Manage your event home page. Manage your users.
To generate a schedule. To manage matches from calendar, surface scheduler or charts and waiting Score sheets.
To create and manage Building/Bars, Rooms and Playing Surfaces.
To create and manage your Divisions and Division Groups.
To create, modify and manage your Players, Teams and Scorekeepers.
To create or manage your Round-Robins configurations.
To manage statistics, rankings, tie breakers and to use multiple parameters available. To manage Best of Patterns and Standing notes.

This manager menu can only be seen with a login name and password.

If we imported your data from an Excel file, your division, players and teams are already in the database for your event. You can modify it from this menu.

Grid Icons meaning

This button is used to add a new line in each grid.

This button is used to modify a line in the grid. You can select more than one line with “Ctrl” or “Shift” and modify many lines at the same time.

This button is used to delete a line in the grid.

This button is used to search in the grid. A new line will appear, type the name you are searching for in the correct column.

This button is used to export this grid to an excel file.

Locations & Surfaces (Manage > Locations | Surfaces)

Buildings | Bars

Before the event, you have to create one or many locations (bars) for your league.

Name	Is Active	Order	A
2nd Ave Corner Pocket	☑	1	609 2nd A
Cooter's	☑	2	729 First A
Ernie's	☑	3	69 16th S
JW's	☑	4	58 Miller A
Union Station	☑	5	1724 16th

Make sure your building is active

Rooms

You can create many rooms in the same building. It can help players their table.

Playing Surfaces

Create your “pool tables” and make sure they are active.

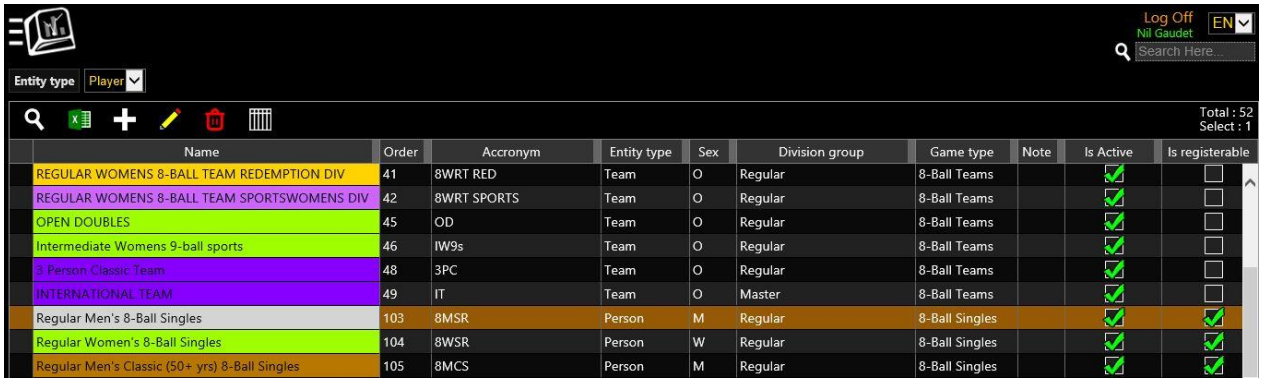
To add many tables at once, select the Place and the room and click on

.

Divisions *(Manage > Divisions)*

Divisions

To add a new Division.



Name	Order	Accronym	Entity type	Sex	Division group	Game type	Note	Is Active	Is registerable
REGULAR WOMENS 8-BALL TEAM REDEMPTION DIV	41	8WRT RED	Team	O	Regular	8-Ball Teams		☑	☐
REGULAR WOMENS 8-BALL TEAM SPORTSWOMENS DIV	42	8WRT SPORTS	Team	O	Regular	8-Ball Teams		☑	☐
OPEN DOUBLES	45	OD	Team	O	Regular	8-Ball Teams		☑	☐
Intermediate Womens 9-ball sports	46	IW9s	Team	O	Regular	8-Ball Teams		☑	☐
3 Person Classic Team	48	3PC	Team	O	Regular	8-Ball Teams		☑	☐
INTERNATIONAL TEAM	49	IT	Team	O	Master	8-Ball Teams		☑	☐
Regular Men's 8-Ball Singles	103	8MSR	Person	M	Regular	8-Ball Singles		☑	☑

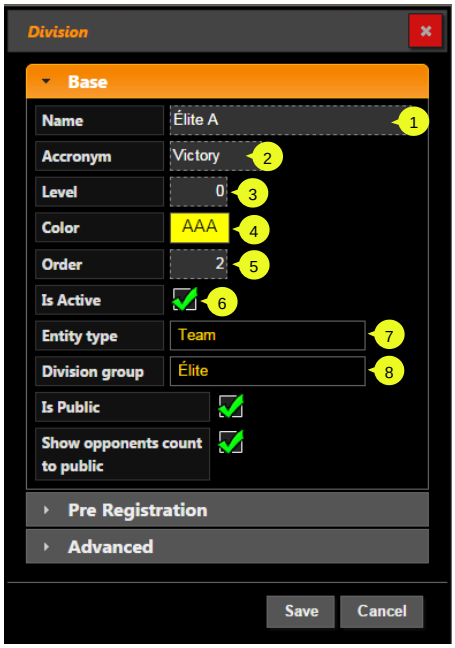
Regular Men's Classic (50+ yrs) 8-Ball Singles	105	8MCS	Person	M	Regular	8-Ball Singles		☑	☑

Make sure your divisions are Active.

To modify a division, select it and click on



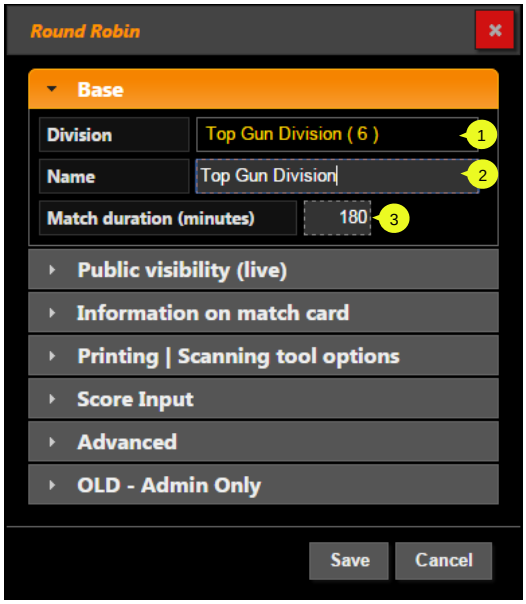
1. Write the name of your division
2. Write an acronym for your division (not necessary)
3. Choose a level (not necessary)
4. Choose a color for this division
5. This number shows the order this division will be shown in the grid.
6. Be sure your division is active if you want to use it.
7. Choose if it's a
   - Team Division
   - Single Division
8. If you created groups for your divisions, for example (Master, Intermediate and Open) you can link your division to a group.

Round-Robin (Game configuration) (Manage > Brackets | Round-Robin)

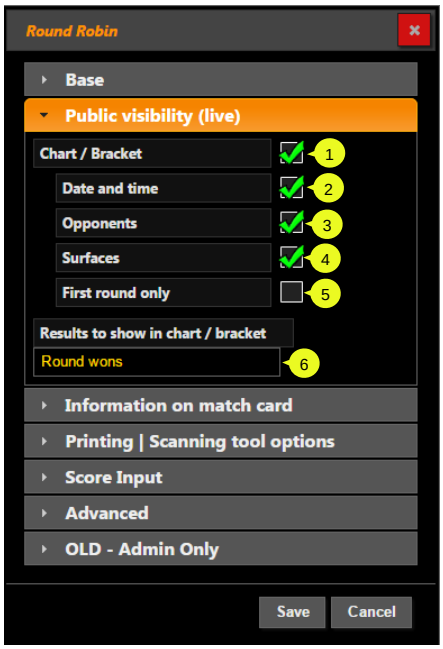
Round-Robins

To add a new Round-Robin.

To edit a Round-Robin and change many settings.



1. Link this bracket with a division
2. Name your bracket
3. Choose de default match duration (minutes)



This window makes your Round-Robin public, meaning that players will be able to see it without being logged in. When you are building your schedule, keep it invisible by having the box #1 unchecked. This is very important because when it's public and you make changes in the schedule, players could have the wrong information since it is still subject to changes.

Check these boxes for public visibility:

1. If the "Chart/Bracket" box is unchecked you have to be login to see it.
2. "Date and time" on the schedule
3. Opponents in the bracket or the schedule.
4. The tables number on the schedule
5. This box is normally used for tournament if you want to start the event and your scheduling is not finished.
6. You can choose which results you want to show on the bracket
    - Match score
    - Game wins
    - Round wins
    - Match wins

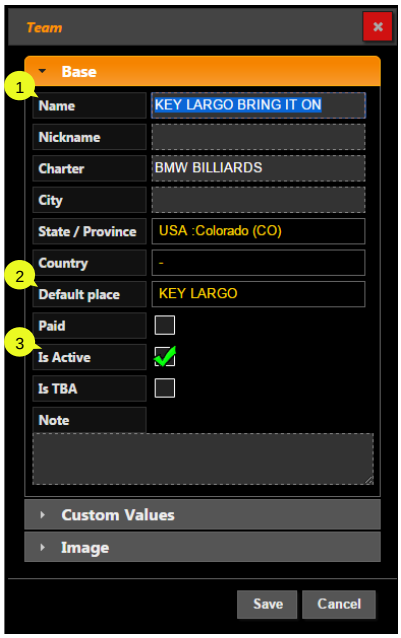
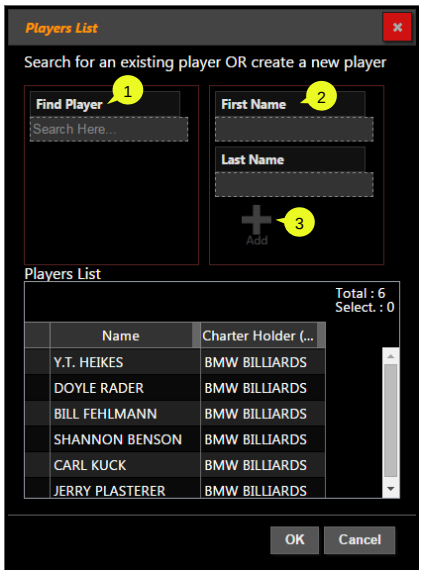
1. Click to add a team in the selected division (4) filled with members.
2. To assign the selected team to a new division.
3. To remove the selected team from the selected division.
4. To select the division you want to manage.
5. This column shows the Team name
6. This column shows the default place (bar)
7. This section shows the players from the selected team
    - The in this section lets you add and manage players from the selected team (add or edit player)

If you select a team and click on



1. You can modify the team name
2. Link the team to a default place
   - A default place has to be entered to build the schedule.
3. Make sure the team is active if you want to schedule it.

If you click on in the player section



1. Use this box to import a player from another division or from the complete CompuSport database. If it doesn't already exist, click on "Click here to create and add this new player."

When all the players for the team are displayed on the "Players List, click on OK.

Manage your players

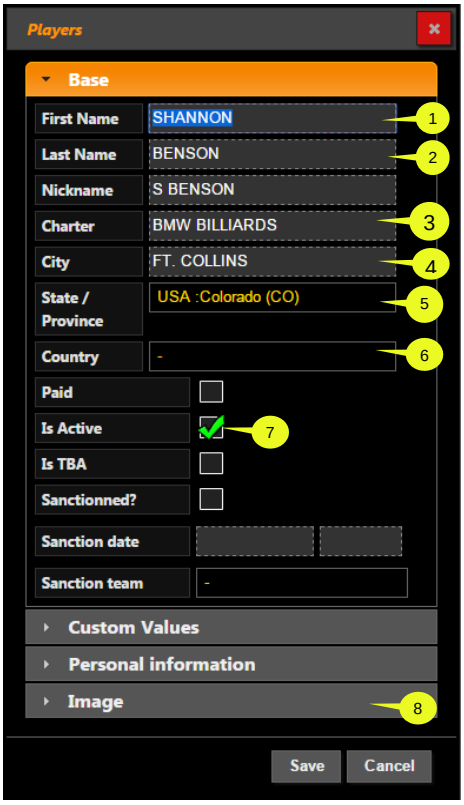
1. You can filter by division
2. Click to add the selected player to a division
3. Click to remove the selected player from the selected division (1)
4. This box shows you in which division(s) the selected player is playing

To add a new player click on , to modify it, select it and click on .



1. Write or modify the First name
2. Write or modify the Last name
3. Make sure your player is linked to your charter name, if you have one.
4. You can enter the city of this player
5. Enter the State or province of this player
6. Enter the Country of this player
7. Make sure the player is active
   - Normally a player is inactive if you import a list of players and want to use just a part of this list. You should activate just the players you want in your event.
8. If you want to add the picture of your player you can do it from an existing picture.

This is a short summary of the most important fields
Please note: The more information you add to a player, the easier it will be to recognize players with the same name in the database.

Build your League Schedule (verification)

Before you use the League Schedule generator, you should verify all of the following things

1. Make sure all your BARs are created
    - To verify, click on

    - Make sure the bars you want to use are activated

2. Make sure Each BAR has the right number of tables created
    - To verify, click on 
    - Each table has to be assigned to the right BAR
    - Make sure the tables you want to use are activated

3. All your Divisions must be created
    - To verify, click on

4. Each TEAM must be created and linked with a default place
    - To verify, click on 
    - In the grid, look under the column “Default Place” (Make sure each team is linked with the right BAR)
        i. To change a default place select the team and click on . A window will pop up, choose a Default Place.

5. You have to build your Round-Robin before scheduling. To do it click on 
    - To create a new one click on

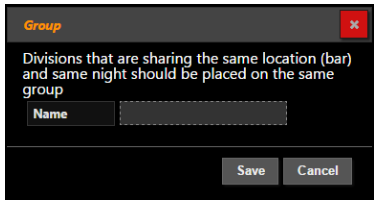
2. Click on 
to add a new schedule group for a specific night. You should give a name to the group, the easiest way is to name this group as the day of the week. For example: Monday

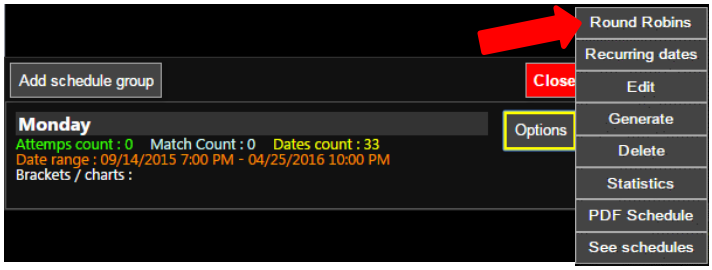


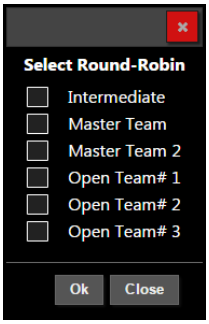
Group
Divisions that are sharing the same location (bar) and same night should be placed on the same group
Name
Save
Cancel

3. Click on

and

to select each Round-Robin (division) playing on this night.

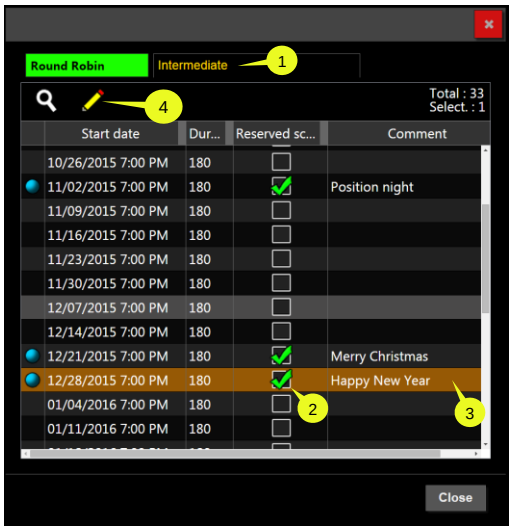




4. Add “Recurring dates” click on Options, Recurring dates then click on Add recurring dates

1. Choose the first date of your schedule
2. Choose the last date of your schedule
3. Choose the time your matches will start
4. Type in the match duration
5. Choose the day of the week

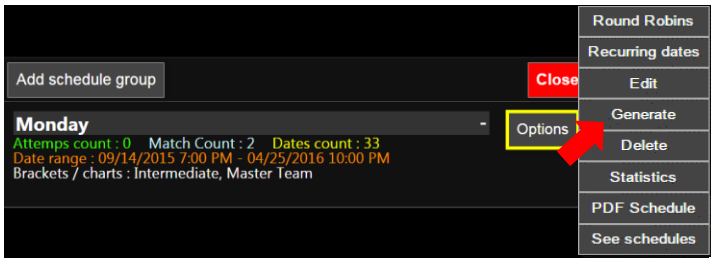
5. To reserve Positioning Nights or Holidays for a specific division (Round-Robin)

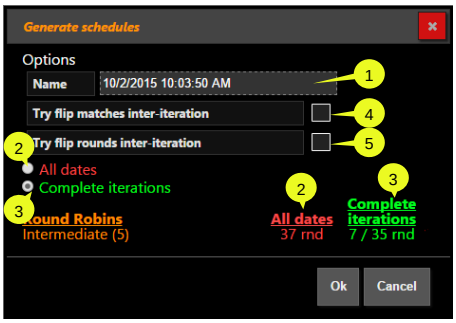


1. Choose a Round-Robin (division) you want to modify.
2. Check the Reserved schedule box (this will reserve that night for a Positioning night or no play for holidays.)
3. To write a comment click on the reserved date to select it and click on the Pencil to edit .
Type the message in the “comment” box.
This comment will appear on the schedule.

Please note: If you want to add a special date for all the divisions, you can modify them all at once by choosing “All” in the Round-Robin. Do not do this if it is a Positioning night that does not apply to everyone.

6. To generate the schedule for this night, click on Options and Generate





1. The attempt Name is the date and time by default. It helps tell the difference if you do multiple attempts.

You have two choices to choose from:

2**. "All dates"** will continue to schedule matches even if it can't complete an iteration. In the example the schedule will continue 37 weeks even though it only needs 35 weeks to complete 7 rounds. The remaining two weeks will be scheduled with random games.

3. **"Complete iterations"** won't schedule an iteration if it can't be completed. In the example each team will play 7 iterations against all others and stop scheduling after 35 weeks.

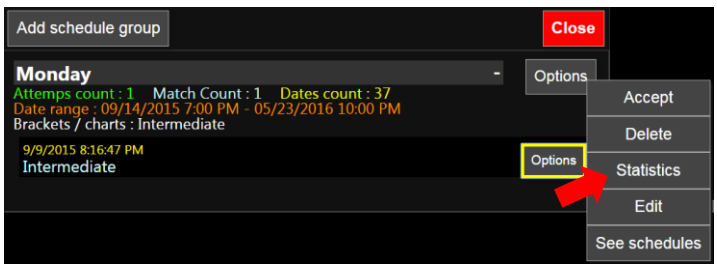
To solve conflicts such as "Not at home" you can try:

4. Checking this box, it will flip home and visitor games if a table is not available. And the next time both opponents are playing, home and away will be reversed. But it may affect consecutive home and away.
5. Checking this box, it will flip two rounds in one iteration to find tables available. For example it will flip Round 3 and Round 6. This can affect the "mirror", meaning that iterations won't be identical/mirrored to the next iteration.

If the schedule can't be generated, verify the following:

- Are your teams are linked to a division?
- Did you assign a default place to each team?
- Did you create and select a Round-Robin?
- Do you have enough tables per bar for the number of teams?
- Are your tables are actived?

7. To verify the schedule you just generated, select the schedule and click on Options and Statistics.



This statistics page will pop up

1. Bar name
2. Number of matches for each bar for a specific night
3. Number of team per bar
4. Average of the number of matches per team at this bar

You can modify your League Schedule from the Surface Scheduler tool.

To see your schedule, click on option, then click on 
.

This will show you tables and matches for every night of this group.

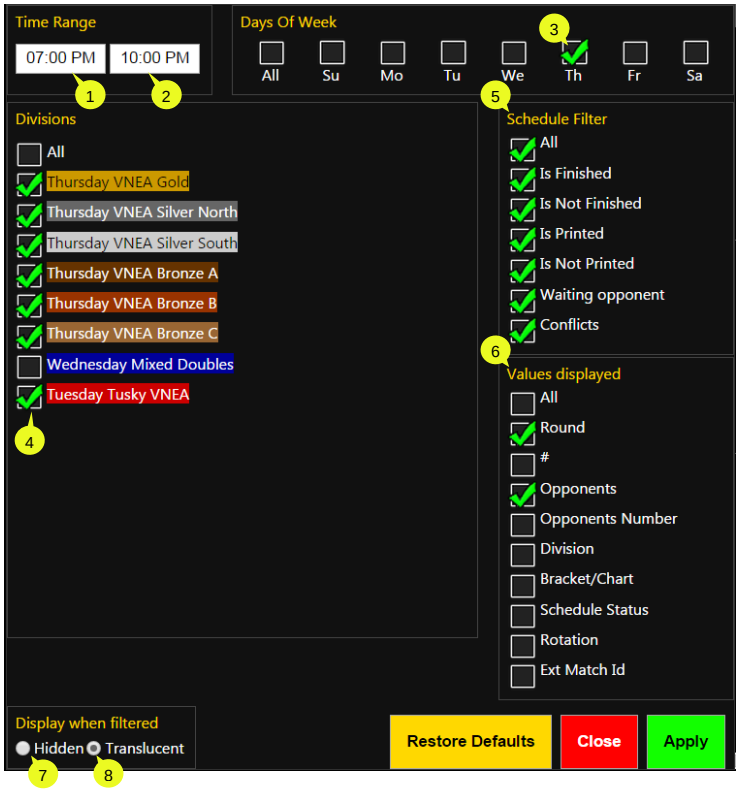
You can move a match on another table if you need.

1. You can refresh to update the calendar.
2. Save your schedule if you make changes.
3. You can add a general item to reserve some surfaces during your season
4. You can also check if you have conflict by pressing on

.

Surfaces Scheduler

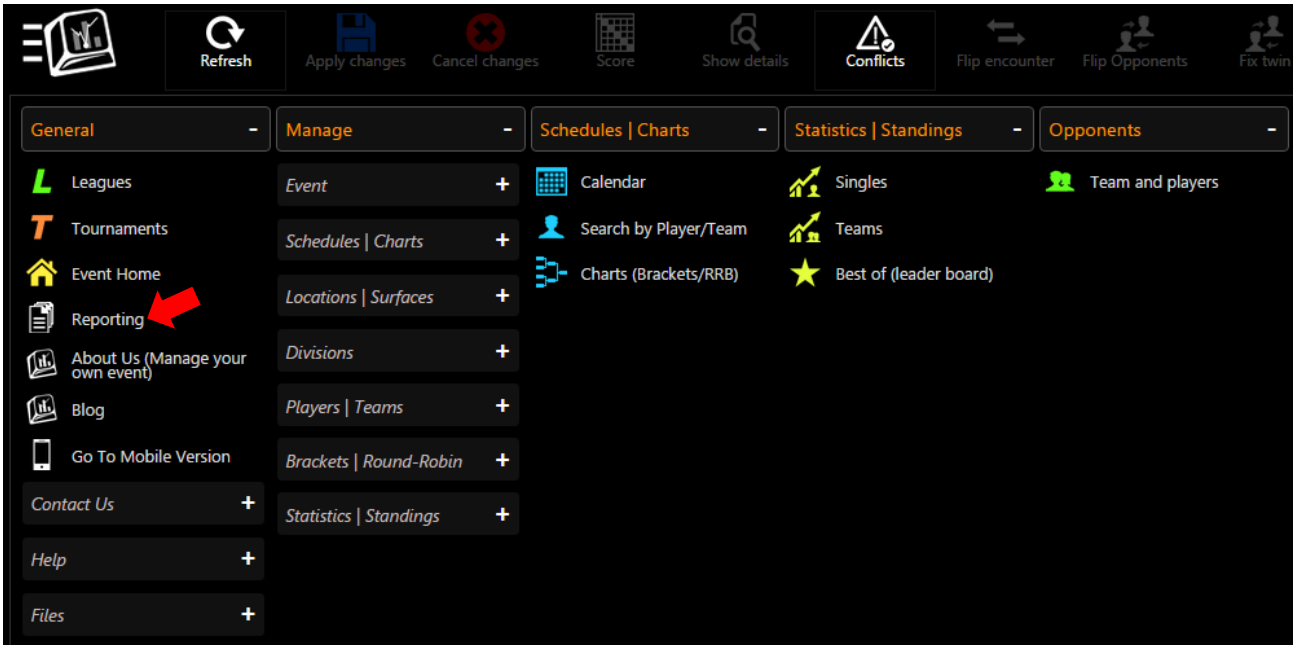
You can also use the filter option to do it, click on **Show Filters / Options**



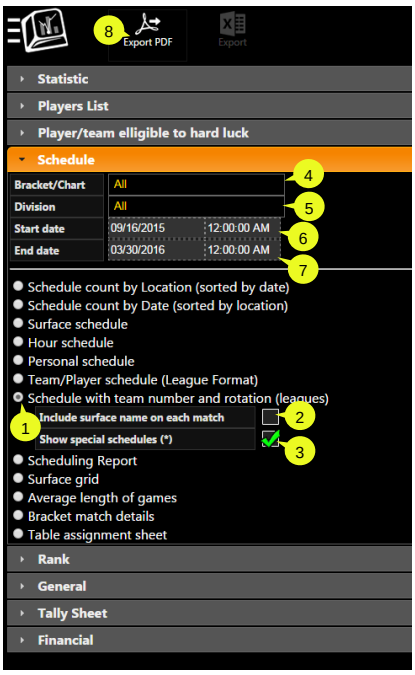
1. Select the starting time of your matches
2. Select the ending time of your matches
3. Select the night you want to work on
4. Select the divisions that are playing this night
5. This section help you to see finished matches rapidly. It's more used for tournament.
6. Choose the information you want to see in each match-box.
7. Choose it to hide filtered matches.
8. Choose it to hide filtered matches (recommended). If other matches are hidden you can create conflict when you slide a match at different time or table.

Print the schedule for the season

To print your schedule you can do it from the general section by clicking on “Reporting”



You can choose many kind of Schedule Report, the most popular is the one with number and rotation for each team



1. Select the Schedule you want to print
2. You can include the table number for each match
3. To show special schedule:
    a. Positioning night
    b. Happy Thanksgiving, Happy New Year…
4. Choose a specific bracket if you don’t want to print all
5. Choose a specific division if you don’t want to print all
6. Choose the start date you want to see on your report
7. Choose the end date you want to see on your report
8. Export the report as a PDF file to send by email or to print for your players

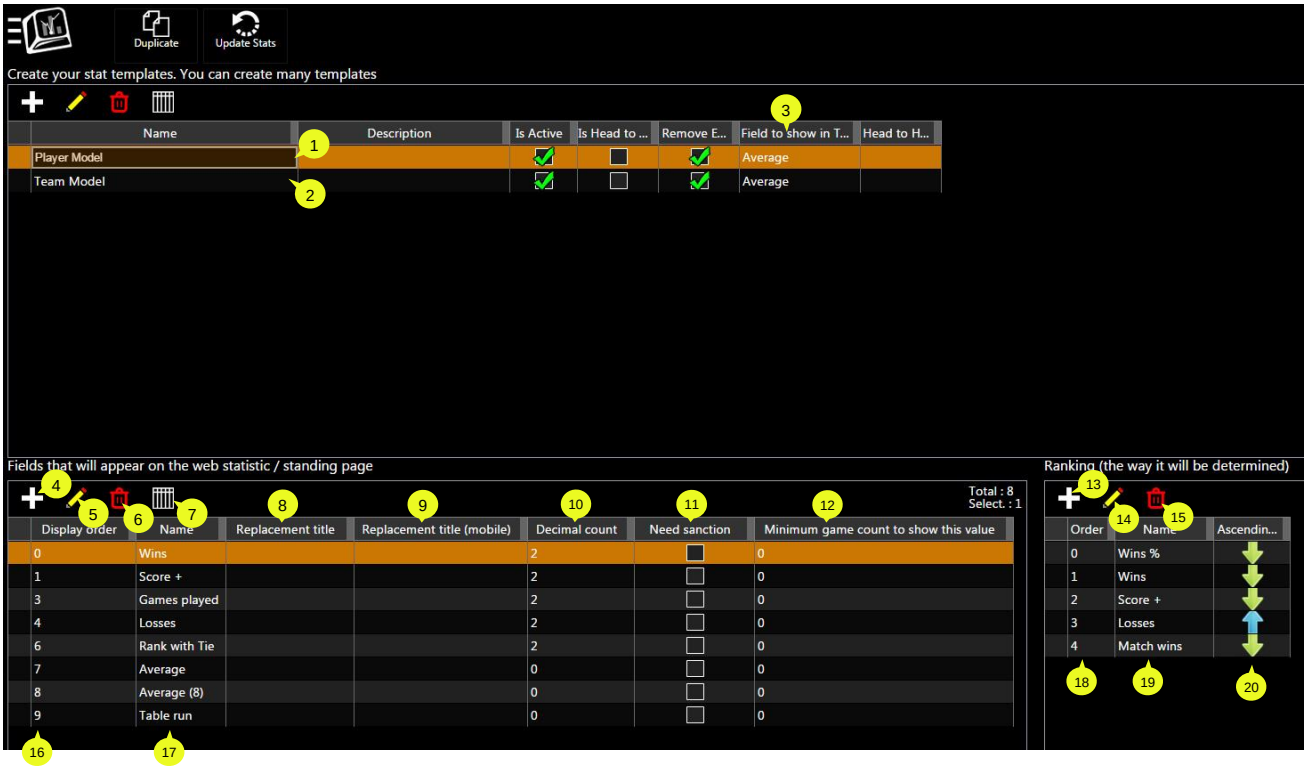
Statistics | Standings *(Manage > Statistics | Standings)*

Stats Model Editor

In this section you can create different models of stats, for singles or teams. When your model has the right configuration, you link your bracket (round-robin) to this model.

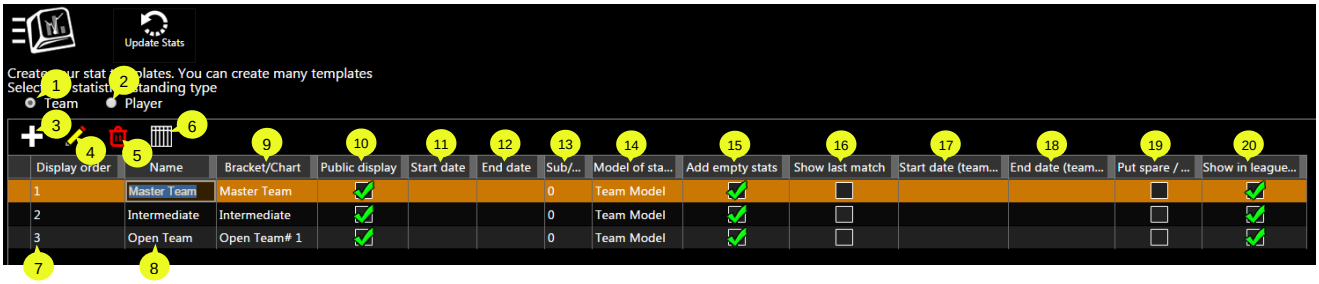


1. Select the Player Model to configure the Single Stats
2. Select the Team Model to configure the Team Stats
3. Choose the parameter you want to use for the handicap in the score sheet
4. To add a parameter or field in the stats section of the selected model
5. To edit or modify the selected parameter
6. To delete (remove) the selected parameter from the stats section
7. To choose which details to show on this section of this specific windows
8. To change the title shown on the stats section for this specific parameter on the computer
9. To change the title shown on the stats section for this specific parameter on mobile version
10. To choose the number of decimal for this specific parameter
11. Check this box if you don't want to show this specific parameter if the player is not sanction
12. You can decide to show this specific value just after "X" games: for example the average at the beginning of the season. And use this value when it's more accurate.
13. To add a parameter or field used for the ranking
14. To edit or modify the selected parameter chosen for the ranking

15. To delete (remove) the selected parameter used for the ranking
16. To choose the order to show each parameter on the stats section
17. Name of each parameter shown on the stats section
18. To choose the priority of each parameter used for the ranking
19. Name of each parameter used for the ranking
20. To choose the order of the selected parameter “from the higher to lower” or inverse

Stats / standing Grouping

To link a round-robin (division) to a stat model and configure the start time and and time for this group



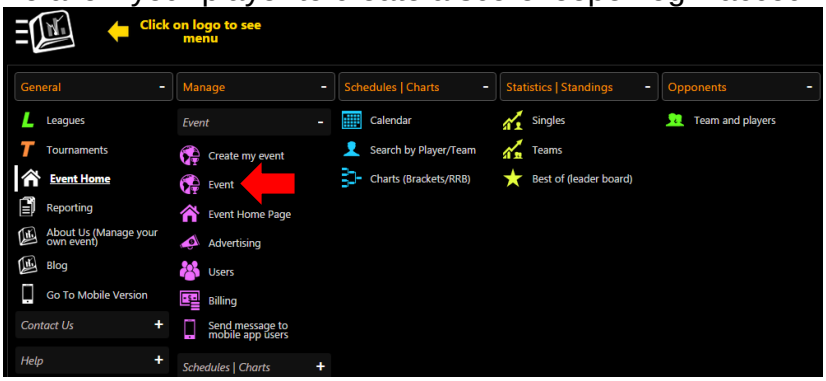
1. Select Player to configure the Single Stats
2. Select Team to configure the Team Stats
3. To add a round-robin (division) to link it with a stats model and configure it
4. To edit or modify the selected round-robin (division)
5. To delete (remove) the selected round-robin from this stats section
6. To edit or modify the selected round-robin from this stats section
7. To choose the order those divisions will be shown on the stats section
8. Name of each group to configure the stats
9. Name of each round-robin (division) to configure the stats
10. To show or hide the stats of this specific stat group
11. To choose the start date to include in this stats group
12. To choose the end date to include in this stats group
13. To choose the ratio (% of game played) to include a single player in the regular (less than that this player will be in the spare section
14. To choose the model you want to use for this specific stat group
15. To show the stats field even if there is no game played
16. To show the stats of the last match for each player (at the right side of the stats section)
17. To choose the start date to include for the teams in this stats group
18. To choose the end date to include for the teams in this stats group
19. To separate the spare and regular player in the stats section (with the status of each player)
20. To include this specific stats group in the league standing report

Score keeping by players after each match

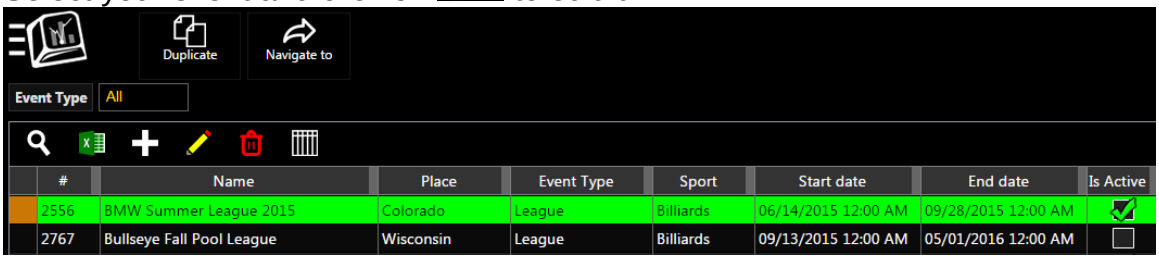
With CompuSport's league system, each team can enter the score directly online. Each team will have to choose a score keeper.

Scorekeeping configuration

To allow your player to create a scorekeeper login account, you should click on "event"

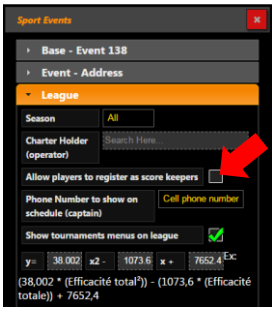


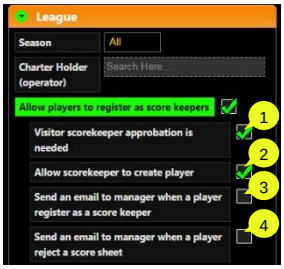
Select your event and click on to edit it.



Duplicate
Navigate to
Event Type
All
Name Place Event Type Sport Start date End date Is Active
2556 BMW Summer League 2015 Colorado League Billiards 06/14/2015 12:00 AM 09/28/2015 12:00 AM
2767 Bullseye Fall Pool League Wisconsin League Billiards 09/13/2015 12:00 AM 05/01/2016 12:00 AM

Under League section, you should check the box "Allow players to register as score keeper"





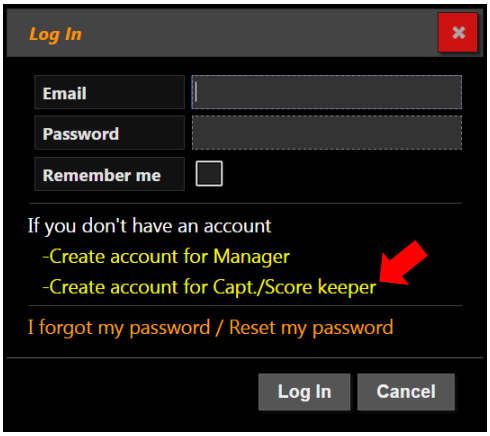
1. If you want an approbation of a scorekeeper from the other team
2. To allow a scorekeeper to create new players from the scoresheet when this one doesn't exist
3. If you want to receive an automatic email each time a new scorekeeper account is created in your event.
4. When a scoresheet is filled up an email is sent to each other score keeper of the other team to approve it. If the second scorekeeper don't approve it because something is not right. When he click on reject with explanation an email can be sent automatically to the manager.

Create login account for scorekeeper

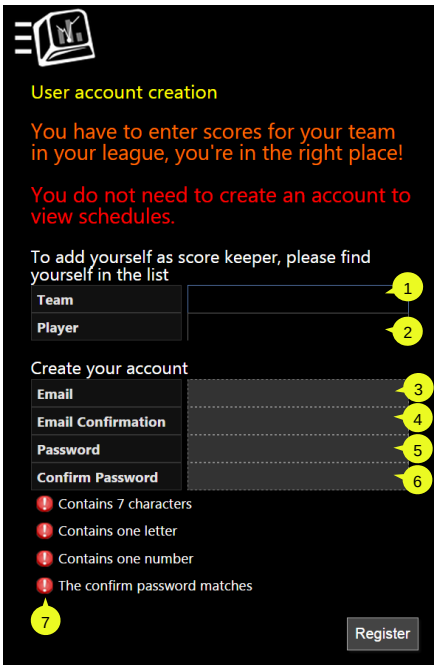
Each scorekeeper needs to have a “login name” and a “password”.

1. Go on www.CompuSport.us and select your league.
2. From your league, click on “Log in” on the top right corner

3. If you do not have an account, click on “**Create account for Capt. /Score keeper**”.



4. Fill up the information



1. Select your team.
2. Select your name.
3. Type your email.
4. Confirm the email address.
5. Type a password, verify the red dots to make sure it contain all the information needed.
6. Confirm the password.
7. Each red dot should be green to register

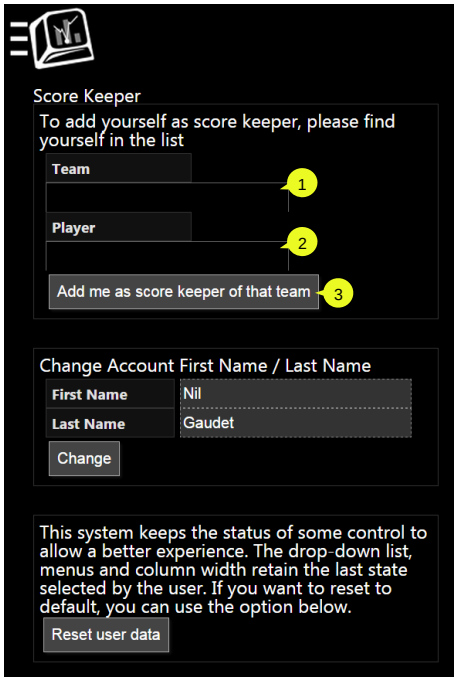
You will receive an email to confirm your account. Click on the link to activate. If you haven’t received an email, check your Junk E-mail.

Your league operator will receive an email to confirm you have an account. He has to accept you before you can enter scores.

If you already have an account:

1. Find your league, click on

enter your email and password to log in.
2. Click on your name. 
3. Then you can fill up the following information



Score Keeper

This system keeps the status of some control to allow a better experience. The drop-down list, menus and column width retain the last state selected by the user. If you want to reset to default, you can use the option below.
Reset user data

1. Choose your team
2. Choose your name
3. Use this button if you need to be score keeper for more than one team

That information will be managed by the league manager on the CompuSport system.

How scorekeeping works

The home team's scorekeeper will have to fill up the score sheet after each match, on the system. Only one captain enters the score sheets, the opponent captain just has to accept or reject.

- Find your scoresheet, there are two different ways to find those matches:
  - 
(Manage > Schedules | Charts > Calendar)
  - 
(Manage > Schedules | Charts > Waiting Score Sheets)
- Click on the match to select it.
- Click on

and fill the blank spaces. When this score sheet is filled up, save it.
  - Fill the Ero, 8 on Break, Table Run, for all games
  - You can save and go back on the page if you want to complete later
  - When you have finished, click on 
- The visitor's scorekeeper will have to be logged in. After that, he will be able to approve or reject the scoresheet. This scoresheet will have a "yellow flag" to its status
  - If the results are good, he should click on

    - If he accepts the scoresheet, the first Captain will receive a confirmation email and the stats will be automatically updated
  - If there is something wrong, click on

    - He will have to write the reason for rejection.

    - At this time, an email will be sent to the other scorekeeper and the league manager to show them the reason.

The first Captain (Score Keeper) will have to "Send for approval" again.

It's the choice of the league manager if he wants a double approbation. The first one is the other scorekeeper; the second would be the league manager.

When all approbations are done, this result will be included in the league stats.

Email Example:

This is an automated Message from CompuSport System.

League: COLORADO

The User Dave Bahor (BIG BROTHER) has entered the score of the game against CRAZY TEAM played on 09/15/2013 06:00 PM.

You must log in and check the score sheet.
You will then have to accept or reject the score sheet.

This is an automated Message from CompuSport System.

League: COLORADO

The User Bob Pine (CRAZY TEAM) has rejected the score of the game against BIG BROTHER played on 09/15/2013 06:00 PM.

Reasons: John did a Ero on Second Round

This is an automated Message from CompuSport System.

League: COLORADO

The User Bob Pine (CRAZY TEAM) has accepted the score of the game against BIG BROTHER played on 09/15/2013 06:00 PM.
